

THE ART OF

GIRYPTO™

ギリフト

SYNOPSIS

Three hundred years into the future, after numerous world wars and nuclear tragedies, Earth has changed drastically. The human population has dwindled, and new species and landforms have emerged. Humans have even begun to develop special powers connected to their habitats.

Among all humankind, ten new races stand out above the rest; they are the most powerful. Despite not having any contact with one another, the ten are on friendly terms.

These ten races are the most pivotal members of the Final Federation – a mysterious organisation which does all in its power to preserve peace on Earth by eliminating every possible threat.

The ten races, working together and using competition as motivation, slowly rise to fame. They assist the Final Federation in combating enemies – anti-federation parties and rebel groups.

After years of battling the anti-federation parties and rebel groups, the ten races experience their first watershed event – the “Annihilation”. Almost simultaneously, the ten races are nearly wiped out. Intelligence collected by one of the ten races reveals that the destruction is a result of the anti-federation parties and rebel groups rallying together to destroy the Final Federation. But the main protagonists are even more shocked to discover that they do not really exist. They are just fictional characters in a metaverse – virtual incarnations whose memories have been wiped clean.

Their brains are linked to a mind-manipulating computer, and they are controlled by their descendants who keep them in a never-ending game – a reality show to those on the other side of the screen; a reality show that accepts bets and offers rewards. It turns out the dreams they get about world wars and nuclear explosions are memories from reality.

With this new discovery, the ten races find themselves at the crossroads. Some choose to accept the truth; others choose to join anti-federation parties. Regardless, the world they know is their prison, and the rules are designed to keep them in the game. The only thing left to do now is... destroy the metaverse...

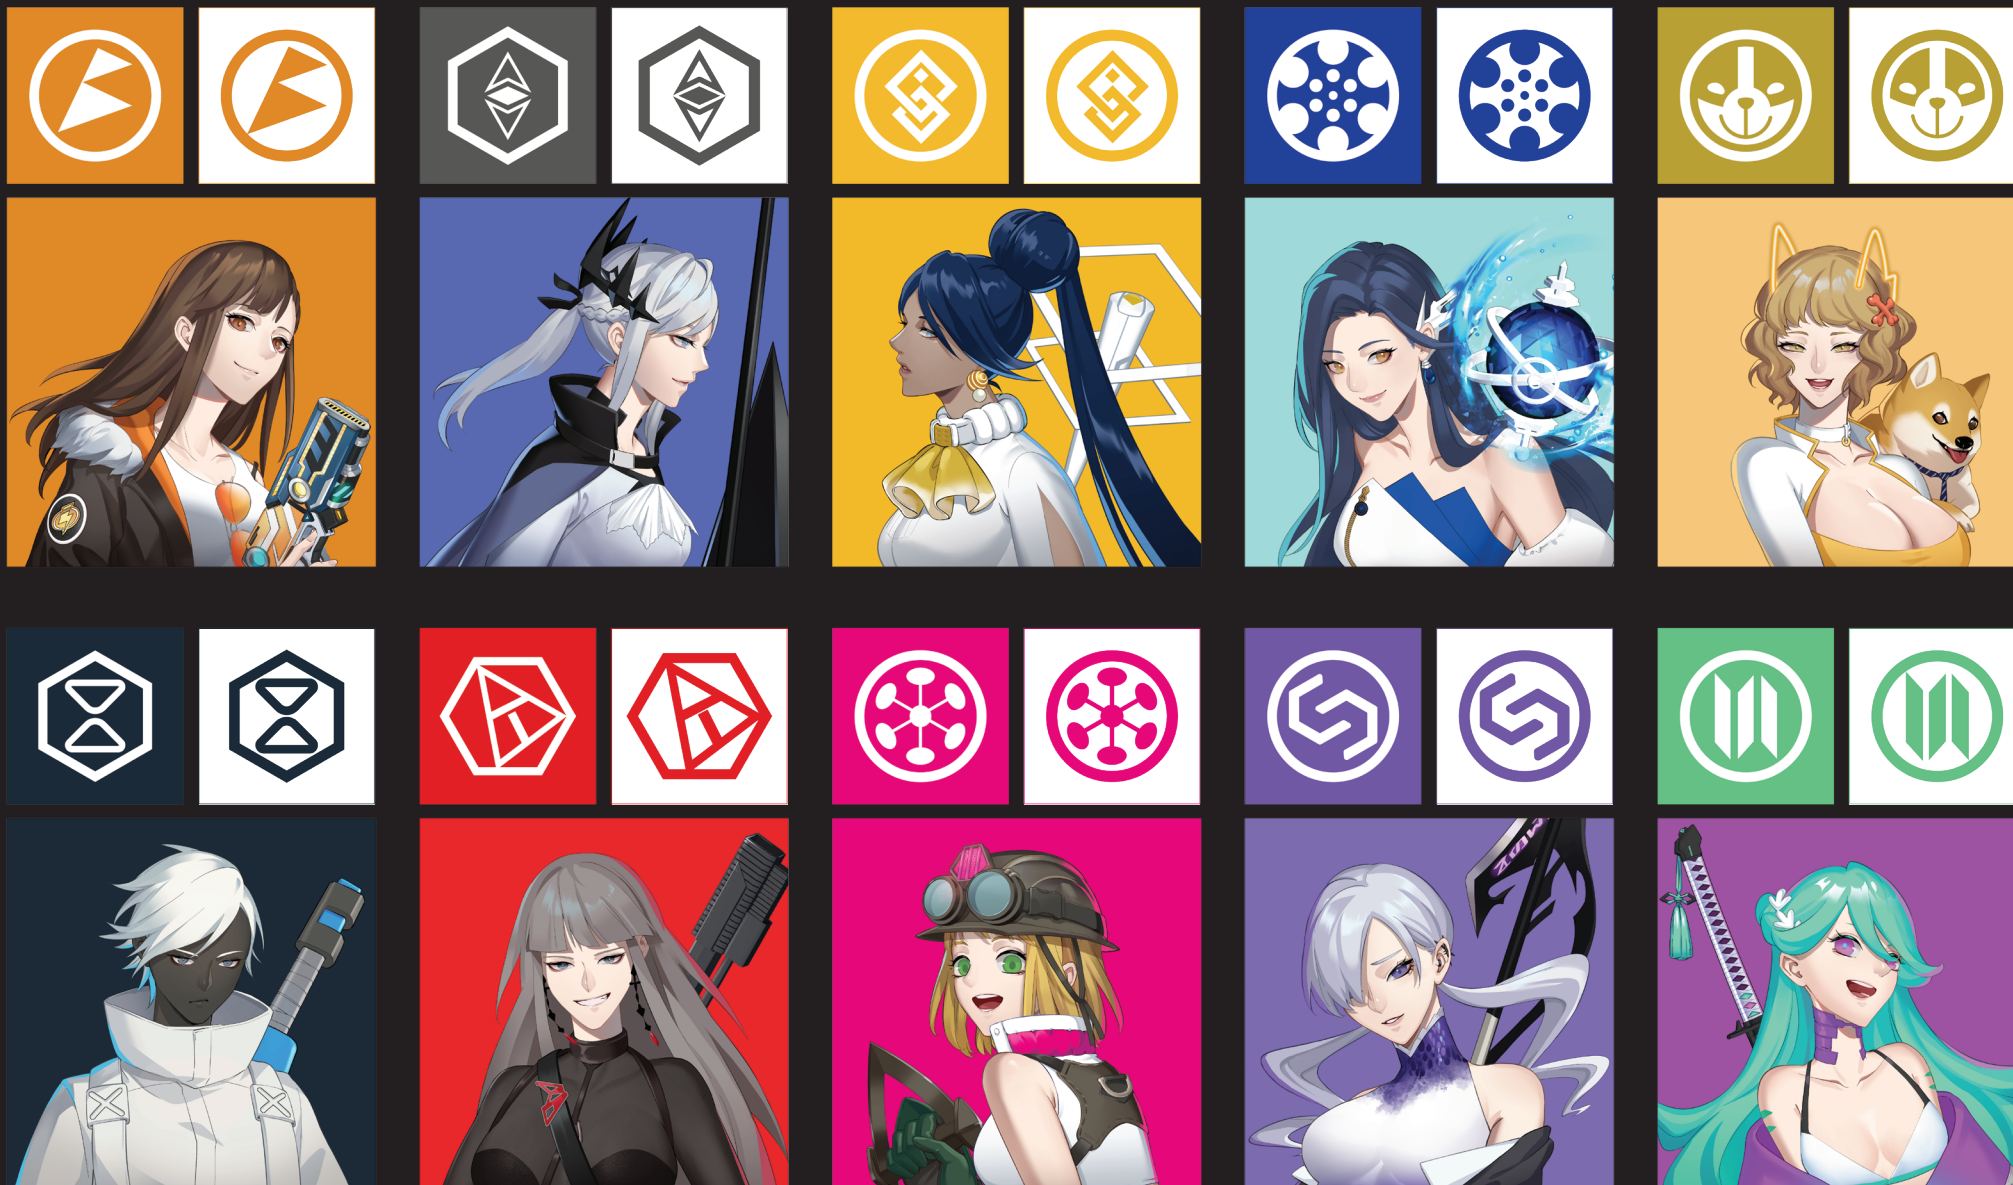

300 年後的地球，經歷世界大戰、核爆與人口蕭條後的地球，地貌與人種已有很大不同。一些人類因為棲息地的關係而發展出特有的能力。在這些人類之中，又以十族最具代表性。十族表面上沒有緊密聯繫，卻有著微妙的共存關係。

為了維護地球僅有的和平，地球上最後的神秘聯盟——最後聯邦不斷致力於掃蕩各種不安元素。其中最能給予助力的，便是擁有特殊能力的十族。經過長期合作關係，十族逐漸發展出榮譽榜，以良性競爭為動力，協助最後聯邦打擊潛在敵人：一些不成體系的叛軍與反政府組織。

十族在打擊敵人多年後，迎來了第一個大事件“湮滅”。幾乎在同時，十族都遭遇了針對性、近乎致命的打擊。在擅長情報的一族穿針引線下，十族最後發現，反政府組織終於結集起來，並決定瓦解最後聯邦的存在。更驚人的是，主角們發現了自己原來只是虛構的存在… …

主角們驚訝的發現，自己原來並非真正的存在，而只是元宇宙裡一個被抹去記憶的虛擬化身。她們被後代操縱，將意識連接到腦機，進行永無止境的元宇宙真人秀遊戲，藉此獲得現實世界裡的獎金。她們過去在夢裡閃現的，關於核爆前的地球種種的夢，其實才是真實的世界。

至此十族迎來了第二次大事件：一些主角選擇接受現實，一些主角選擇了認同無政府主義者的鬥爭：這個世界是個囚牢。所有的規則都只是豢養玩家的陷阱，唯一的鬥爭，就是毀掉元宇宙… …
